

TWO POST MAXLE SYMMETRIC & ASYMMETRIC

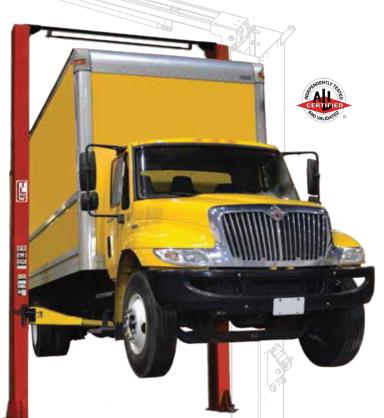

16,000 lbs. Capacity

- clear floor symmetric design 16.1 ft. (4902 mm) ceiling height adjustable if required factory order down to 14.5 ft. (4394 mm)
- large profile one piece column construction with close fitting carriages for more strength and smooth secure vehicle lifting
- twin cylinder direct drive lift system with 3/8" (9.5 mm)pre-stressed equalizing cables
- ultra high molecular weight polyethylene carriage slide bearings (8 per column)
- single point pneumatic safety lock release (locks automatically re-engage when palm button is released)
- heavy duty threaded rod arm restraints engage when lift is raised
- low profile arms with stack pad (includes 4.25" (108 mm) and 9.75" (248 mm) extensions)
- 230V 1 phase 60 Hz 20 Amp power required (optional 230V - 3 phase available)

Available Accessories

Stacking Pads (optional) TLSP16A

Model Number TLS216SRx1

Air - Electric Station TLS2AES

PLATFORM LIFT FEATURES	TLS216SRx1	TLS218SRx1
ALI/ELT Certified	yes	
Symmetric Lifting	yes	
Clear Floor Design	yes	
Cable Equalization	yes	
Standard Height Model	yes	
Extended Height Model	yes	
Standard Width Model	yes	
Single Piece Column	yes	
Structural Warranty	2 years	
Hydraulic Parts Warranty	2 years	
Others Parts Warranty	2 years	
Accessories Warranty	90 days	
Labor Warranty	1 year	
Optional 3 Phase Power	yes
